Subject: Evaluation of Reclamation Surety, Bolinder Resources LLC, Stansbury Island Mine, M/45/0046, Tooele County, Utah

Dear Mr. Bolinder:

The last reclamation cost estimate for the Stansbury Island mine was completed in 2006 and escalated to 2011 dollars, with a bond escalation date of October 30, 2011, so the reclamation surety amount is now due for review and adjustment. The Division of Oil, Gas and Mining may adjust the amount of reclamation surety as the result of a periodic review taking into account inflation/deflation based on an acceptable cost index (R647-4-113.6).

To properly calculate the reclamation cost estimate, the Notice of Intention to Commence Large Mining Operations (LMO) needs to be up to date to ensure it is adequate and reflects the current operating conditions. Any necessary changes should be addressed by submitting an amendment to the LMO using form MR-REV (LMO).

In addition, the Division has developed worksheets to assist both the Division and mine operators to calculate the reclamation cost using standard unit costs. These are available on the Division's web site at http://linux3.ogm.utah.gov/WebStuff/wwwroot/minerals/bonding_worksheets.html. Please complete these forms and return a copy to the Division for review. Once the forms have been reviewed, the Division will ask that you adjust the amount of surety to reflect the current reclamation cost estimate.

Please submit the reclamation cost estimate as an amendment to the LMO by February 12, 2016. Please also submit any other needed changes to the operation and reclamation plans in the LMO by this date.

Please contact Leslie Heppler at 801-538-5257 for the LMO update, Wayne Western at 801-538-5263 for the bond update, or me at 801-538-5261 if you have questions regarding this letter. In reply please refer to file number M/45/0027.

Sincerely,

Paul B. Baker
Mining Program Manager
